## THE ZEN OF SEGWAY

Suddenly, thought & action are one.

Stand on a Segway PT and it remains stationary and upright, balancing you appropriately. Shift your weight

forward, backward, left or right, and LeanSteer™ technology immediately

sends you gliding in the precise direction you want to go, at exactly the speed you want to move. Straighten up and gently stop.

Segway engineers call it

“closed-loop dynamic stability control.”

You'll call it magic.
